5 Miles From Cherbourg!

By WES GALLAGHER

'ALLIED HEADQUARTERS, June 20 (AP)—Reinforced American troops hammered toward Cherbourg today in a full-scale offensive, and radio broadcasts from Normandy declared advanced contingents were only five miles from the shell-torn port. American forces have occupied Montebourg.

Rocket Bases, Reich Blasted

ALLIED HEADQUARTERS, June 20 (AP)—More than 1500 American heavy bombers, possibly the greatest force in history, today simultaneously attacked rocket bomb platforms in the Pas-de-Calais and an array of objectives in central Germany ranging from oil refineries to airplane and tank plants.

The giant armada equalled if it did not surpass that sent out last Wednesday to attack French airfields, bridges and the Emmerich oil refinery in Germany.

With its big fighter escort, the entire sky fleet totalled upward of 3000 planes.

The heavy bombers blasted synthetic oil plants and oil refineries around Hannover, Hamburg, Magdeburg and Ploetz, a tank depot near Magdeburg and an airplane wing repair and parts plant near Brunswick.

The German reported the American fleet was attacked by large formations of fighters and that heavy air battles were fought.

Twenty-one of the bombers made forced landings in Sweden, the greatest number to land in that neutral country in a day.

Sixteen landed at Bulltofta airport at Malmo, with one reported crashing and killing six crewmen. Three others crashed in south-

western Sweden, and two planes landed outside Halstad.

Returning crewmen said they found clear weather over Germany, but were forced to bomb through a cloud cover over the Pas-de-Calais.

Today's giant operation took a part of the fleet more than 550 miles, almost to the Polish border, to hit Ploetz, 10 miles north of the Baltic seaport of Stettin in far eastern Germany.

While the American bomber and fighter fleet was coursing across Europe and smashing again at the ramps from which Germany's rocket-bombs are launched, lighter Allied aerial forces swarmed across the channel in improving weather and renewed the harassment of German forces in Normandy.

The Paris radio soon left the air, indicating medium bombers and fighters were hitting behind the German lines.

Today's bomber formation was the fifth force of more than 1000 heavyweights the American Air Force has sent out since D-Day.

The latest headquarters reports also said doughboys had struck within seven miles of Cherbourg from the southwest, and another column battering in from the southeast was threatening Valognes, 10 miles from the great harbor, after isolating Montebourg.

Drawing new strength from other sectors of the Normandy beachhead, Gen. Bradley sent his troops surging northward in what headquarters called "co-ordinated attacks along the entire north front."

50,000 NAZIS IN TRAP

Over the heads of the advancing doughboys American big guns hurled streams of shells into the port, defended by possibly 50,000 German troops caught in the closing Yankee trap.

Deepest wedge was driven into a German ring of fortifications from the southwest. A column sweeping forward from captured Bricquebec hurled the Nazis back to the outskirts of Rauville la Bi-got, six to seven miles south and slightly west of Cherbourg.

Communique No. 29 from Gen. Eisenhower's headquarters said other American columns to the east were driving forward in twin moves to flank Valognes after sweeping around Montebourg and cutting off isolated pockets of Germans there.

While the Yanks were steadily marking up new gains, the British toward the eastern end of the beachhead once again drove the Germans from Tilly-Sur-Seuilles, which has changed hands several times.

The American wedge across the Cherbourg peninsula now is 16 miles at its widest point and eight miles at its narrowest.

It was expected that a matter of hours would show the strength of the Cherbourg inner defenses.

FRANCE—Arrows show drives by Yanks south of Cherbourg today. U. S. forces drove to Rauville and threatened Valognes, after by-passing Montebourg. Black lines are battlefronts.

Japs Hint Fleet Will Soon Fight

PEARL HARBOR, June 20 (AP)—American carrier pilots and warship guns have destroyed an estimated 300 Japanese planes off Saipan to win the biggest Pacific air battle since Midway, while a land surge captured a vital airstrip and sealed off the southern end of the island.

In a vicious battle lasting several hours, the off shore task force smashed a sustained Japanese aerial assault Sunday. Adm. Nimitz said first information reported only one American vessel damaged.

(Imperial Japanese headquarters declared, without confirmation, that 300 American planes were destroyed and a battleship, two cruisers, a destroyer and one submarine were sunk during the battle. A broadcast enemy communique also said Japanese airmen were still attacking the American ships.)

(This claim may have been a follow-up to a Tokyo broadcast promising "that the Japanese navy in the near future will win a great naval victory in the central Pacific.")

With the land battle still raging

to their north and southwest Sea-Bee began preparing the newly captured Aslito airstrip, on Saipan's southern coast—the first American air base within Japan's Central Pacific middle defense arc. Its capture climaxed the long drive toward air bases strategically dominating the oceanic approaches to Tokyo.

Pushing through tangled canefields and swamps, American Marines and Army troops traversed the island on a wide front to reach Magicienne Bay on the east coast, three and one-half miles from the western landing beach. In this mile and one-half advance since Friday, some Japanese forces were cut off in the arrowhead of Nafutan point, Saipan's southeastern extremity.

The Japanese aerial thrust included some planes apparently based on distant carriers and using nearby shore bases for shuttle landings, the U. S. communique said.

Arrows show American drives on Saipan which took Aslito airbase, advanced to Magicienne bay and pressed northward to Garapan. Inset map locates Saipan in relation to (A) Guam and (B) Rota islands, used by Japs as shuttle landing fields in their carrier-based attack on Yanks which cost the enemy 300 planes.

Dozens of Robots Downed on 6th Day

LONDON, June 20 (AP)—Snap-shooting anti-aircraft gunners and relays of swooping fighter pilots blasted dozens of Nazi robot planes but of the sky overnight and the Allies appeared to be getting the range on this new weapon today, the sixth of the buzz-bomb blitz.

The Germans tried a handful of the comet bombs June 15 but did not set the sustained attack going until June 15.

In one district alone four flying bombs were shot down by night fighters within a few minutes.

The Germans have been launching the robots in no particular order. Sometimes as many as five came over almost together.

In daylight today the Germans kept winging the one-ton bombs into England at sporadic intervals. The British air ministry announced that new and secret measures were being taken to wipe out the cross-channel attacks.

As U. S. heavy bombers struck twice yesterday at the rocket emplacements around Pas de Calais the air ministry made known that six months of constant attacks had blasted out so many of the launching platforms that the pilotsless

bombs finally were put into operation on less than one-fourth the scale Hitler originally planned.

It was estimated the smaller types were capable of a speed of 200 and 220 miles an hour while larger robots traveled at perhaps 400 miles an hour. Air ministry official described as ridiculous, however, reports some of the rocket bombs traveled at 600 miles an hour.

ALLIED HEADQUARTERS, June 20 (AP)—The American Ninth Air Force is producing a new type of fighter "aces" among its fliers who have joined the sky patrols waiting to shoot down German rocket bombs.

Mustang Pilot Lt. Lewis Powers of Albuquerque, N. M., shot down two and shared another with an RAF fighter last night in addition to one he named the previous night.

Lt. Powers sighted the first coming in at about 2000 feet. He dived on it, gave it several bursts and watched it crash.

Changsha Falls, Chinese Reveal

CHUNGKING, June 20 (AP)—Indicating that Changsha had fallen, the Chinese high command said tonight the situation in the capital of Hunan province was obscure following destruction of suburban defense works by more than 50,000 Japanese troops. Radio contact with Changsha was broken.

The Japanese attacked the suburban defenses under a cover of war planes, the high command said.

(Tokyo radio said earlier that Japanese imperial headquarters had announced the complete capture of Changsha Sunday, as well as the taking of Liling, 40 miles southeast.)

Big Red Guns Shelling Viipuri

By EDDY GILMORE

MOSCOW, June 20 (AP)—Big guns of the Red army, only nine miles away and within sight of the Finnish seaport of Viipuri, poured salvo after salvo into its outskirts today.

Izvestia's correspondent said Viipuri "is just ahead of the Red Army" and that the speed of the "remarkable" offensive was increasing.

The Red Star correspondent declared coastal defenses of the Finns along the Gulf of Viipuri have collapsed and Soviet salos are threatening to cut off large numbers of the enemy in little

BULLETIN STOCKHOLM, June 20 (INS)—Red Army troops today occupied Viipuri, second largest city in Finland, whose fall in the "winter war" of 1939-40 brought hostilities to a close.

peninsulas south of the city. There were no indications in Moscow that the Finns are seeking to reopen peace negotiations. A Red fleet dispatch said Rus-

sian ships are pounding Finnish craft in the Gulf of Viipuri and the Gulf of Finland.

WASHINGTON, June 20 (AP)—Finland Minister Hjalmar Procope who has been handed his walking papers by the State Department is expected to sail at the end of this week from New Orleans on a Spanish steamer.

English-born Mr. Procope, expecting a child in about two weeks, will probably remain behind.

UNIFORM THIEF—Bertha Fields, 24, of Gainsboro st., Back Bay, today was found guilty in the larceny of five uniforms from the Beacon Hill lodging house of two WAVE yeomen. She was turned over to superior court probation officer for violation of probation.

International News Photo by Frank Mahoney

Hunt Boaster In Girl Killing

A young war worker who boasted he knew the murderer-ravisher of 10-year-old Frances McGrath, was sought by state detectives today, after a Boston taxicab driver told a story that drew the youth into the murder probe.

The driver told of picking up the war worker at West Newton and Washington sts., South End, June 16, the day the little Dorchester girl's body was found in a lonely Norwell pine grove.

"Take me over to the West Boston bridge," ordered the youth. He explained he was going swimming at the Esplanade public beach there.

Then, related the driver, his fare brought up the subject of the McGrath child's murder, declaring: "The cops know a South End guy did that McGrath job. I'll bet you a dollar they're right."

The driver wanted to know who the man was.

His fare grinned knowingly and passed off the question. He made it plain, the driver said, that he could have supplied the murderer's name.

"Well, then, just tell me why he did it," asked the driver.

TRIED TO DETAIN YOUTH

Again his fare professed to know the answer but refused to give it.

When they reached the West Boston bridge, the driver tried to detain the youth and keep him in conversation until a policeman might appear. The fare, who had been talkative throughout the trip from the South End, suddenly decided to talk no more. He left hurriedly.

Police would not reveal the taxicab operator's identity but they stated he had an exemplary record with his company and was known favorably in his neighborhood.

FLUSH WITH MONEY

He described the youth as 18 or 20 years old, about 5 feet 7, weighing 160 pounds, of dark complexion and dark hair. He wore a red and black checkered work shirt, dungarees and tan shoes.

The driver said the youth appeared to be flush with money, for the trip would have been a short one to take by rapid transit. He picked him up between 6 and 6:30 p. m. The body of the McGrath child was found at 8:20 a. m.

FINGERPRINT CLUE

Meanwhile, the most significant clue to the monster who attacked, then smothered the McGrath girl, continued to be the three finger-

Continued on Page 10, Column 3

Joseph G. Walker, state chemist, and Sgt. George Roach set up high-powered portable light in preparation for their search of a Scituate cottage for evidence in the McGrath murder investigation. In possession of their first clues to the identity of the slayer, state and local police indicated the case may be solved very soon.

Dilemma Faces Hitler on Robots

By PIERRE J. HUSS

SOMEWHERE IN ENGLAND, June 20 (INS)—Hitler is facing a grave dilemma in the wake of his robot bombs today as 60,000,000 Germans breathlessly await a promised Allied "capitulation" under the Nazis' greatest hoax.

All reports from the Reich indicate Propaganda Minister Goebbels has dangerously overreached himself in his fantastic propaganda. Intentionally or not, he has created a synthetic miracle in the minds of the German public.

The bubble is about to break.

German mentality swings from one extreme to the other. The average German is easily victimized and emotionally unstable, a fact which the crafty Goebbels has exploited to the utmost.

Close observation of German mental trends during the past two months discloses two factors.

First, all recent reports from inside the Reich reveal that, generally speaking, the German people recognize only a miracle can save them from utter defeat, and they have grasped at the desperate hope such a miracle has occurred.

Second, Allied bombings and successful landings in France despite the highly-touted Atlantic wall had plunged the Germans into a nearly morbid state which needed a radical rousing.

Today's incoming reports from neutral lands and even from Berlin already betray growing alarm with which official, and particularly military minds, are watching the effects of Goebbels' mass deception.

Striving to apply the brakes before it is too late, military quarters in Berlin began to stress more

loudly the robot bomb cannot win the war or even decide the course of the war.

Past experience shows how difficult it will be for the Nazis to filter the real truth into German minds.

Hitler knows this and without a doubt realizes that even the Germans have a limit to their endurance.

Gosh, Nazis Take All Our Gen'ls!

(AXIS PROPAGANDA)

NEW YORK, June 20 (INS)—A totally unconfirmed allegation that the entire staff of Allied general headquarters in the Tilly Sur Seulle area of Normandy was captured by the Nazis was broadcast today by the Berlin radio.

The transmission, quoting a German high command communiqué, was heard by NBC.

Nazi Guns on French Coast Shell England

LONDON, June 20 (AP)—German big guns in the Cape Gris Nez area on the French coast opened up shortly after 2 a. m. today and for 15 minutes sent shells screaming across Dover Strait.

Later the German radio said the Nazi batteries had shelled several large Allied ships in the Strait and had forced them to flee.

Rites Tomorrow For Asylum Victim

Funeral services will be held tomorrow at 1:30 p. m., at the Henry F. Cate and Sons funeral home, West Newton, for John I. Adams, 66-year-old former Auburndale resident, who was killed by a fellow patient at Westboro State Hospital.

\$1500.00 Reward

Rewards totaling \$1500 in War Bonds will be paid for exclusive information to the Record-American-Sunday Advertiser leading to the apprehension of the slayer of 10-year-old Frances McGrath, whose battered body was found last Friday.

These papers offered the first \$1000 in War Bonds and an additional \$500 was offered by a reader, who asked that his identity remain confidential.

Call City Editor, Liberty 4000.

6740 Italians Ill In German Camp

ROME, June 20 (AP)—Allied control commission officers who visited a camp established by the Germans for Italian refugees from the Anzio-Cassino areas reported today they found practically all its 6740 residents suffering from malnutrition and scabies.

More than 500 Italians, mostly children, were afflicted with other ailments.

The camp had no latrines, no cooking facilities, inadequate water and the refugees were living in filth, the officers reported.

It had one Italian doctor, but the officers found him, at 4 p. m., in bed smoking and reading a newspaper.

Fourteen truckloads of food have been delivered to the camp and the inmates are being returned home as soon as they are screened for infectious diseases.

Bricker Gains Support In Pre-Convention Drive

CHICAGO, June 20 (AP)—New York admirers lifted the wraps today on Gov. Thomas E. Dewey, leading contender in the Republican presidential race, but Gov. John W. Bricker of Ohio picked up new support in what his friends hope may be a winning stretch run.

AID FOR CAPTIVES—Mrs. James Corrigan (left) of Fairhaven and Mrs. C. J. Hamson of Boston prepare a parcel for a prisoner of war at the headquarters of the Greater Boston Prisoners of War Ass'n in the Boston Y. M. C. A. Mrs. Corrigan's husband, a flier, and Mrs. Hamson's husband, who fought with the British at Crete, are war captives in Germany.

Girl, 19, Admits Guilt In Gas Conspiracy

Ten Massachusetts persons, including two women rationing board clerks, were arraigned in federal court today on charges of conspiring to transfer gasoline ration coupons.

Beverly Hollinger, 19, Massachusetts ave., Back Bay, clerk of the Hyde Park board, pleaded guilty and Judge Sweeney postponed disposition.

Pleas of not guilty were made by the other defendants and they were released under bonds totaling \$11,000 for trial at a later date.

They were Vilda M. Kurgan, New Bedford rationing board clerk; Joaquin Salgado, Albert Costa and Manuel Medeiros, all of New Bedford; Charles Paratore, Boston barber and uncle of Miss Hollinger; Samuel Federman, Augusto J. Figueira and Robert Al-drinch, all of Hudson, and Francis Leonard of Marlboro.

Arraignment of Angelo Piacentini of Somerville on a conspiracy charge was postponed due to the death of his brother.

OPA in New Drive On Gas Black Market

In a move to curb a new type of black market gasoline operation, which is being conducted on a nationwide scale with Boston as one of the leading centers, 25 special OPA investigators today were assigned to check the activities of hundreds of gasoline dealers throughout this area.

Announcement of the new drive was made by Cornelius J. Moynihan, regional OPA enforcement officer, who said the new black market was so huge that OPA was forced to abandon plans to increase the amount of B rations.

In their new racket, Moynihan explained, the black mart operators are using dealers' inventory coupons, worth 100 gallons each. These are being sold for \$15 to filling stations to dealers can pay their inventories, Moynihan charged, and also to motorists so they can make deals with unscrupulous gasoline men.

Small Businessmen To Confer Friday

J. Claude Shea, president of the Small Business Ass'n of New England, today urged all small businessmen, whether or not they are association members, to attend a conference and dinner at the Copley Plaza Hotel on Friday.

4—Boston American, June 20

The New York governor emerged as an all-but-avowed aspirant for the nomination after a news conference in which J. Russell Sprague, national committeeman, Edwin F. Jaecke, state chairman, and Herbert Brownell, Jr., twice Dewey's campaign manager, clubbed together on the opinion their favorite would be willing to head the ticket if the GOP wants him.

Their action in slipping off the blanket of silence which has surrounded Dewey's reaction to the nation-wide draft campaign in his behalf went without comment from Bricker leaders here for the nominating convention next week.

SIGNIFICANT BREAK

But in Maryland there was a break toward the Bricker stable some adherents thought was significant. Sheridan F. Smith of Baltimore, named a delegate by a Republican state convention that urged Dewey as a candidate, announced he would vote for Bricker on the first ballot. There were signs some others in the 16-vote delegation might follow this lead.

Rep. Carrill Reese (R.) of Tennessee, a national committee member, said here Bricker undoubtedly had made a good impression on speaking tours and was showing new push.

"But," he added, "it is difficult to say whether any of this has been translated into delegate strength."

"NO CANDIDATE"

Preserving Dewey's contention that he is not a candidate, Sprague said it was the opinion of New York Republicans that the governor would come to the convention to accept a proffered nomination.

Sprague insisted Dewey was not consulted about this statement. When a reporter asked if anyone else was authorized to "speak for the candidate," Sprague replied quickly:

"There is no candidate."

Normandie Repairs Cancelled By Navy

NEW YORK, June 20 (AP)—Shortages of manpower and critical materials have caused cancellation of plans to rebuild the USS Lafayette, formerly the luxury liner Normandie, which burned and sank at her pier in February, 1942, the Navy Department announced.

After the giant ship, refitted for use as a troop transport, had been raised at a cost of \$3,750,000, her hull was repaired and she was taken to the Todd Ship Yards in Brooklyn, where the ship rests, the Navy said.

Curfew Rings

Curfew rings in Malden tonight and woe betide youngsters found on the street unless accompanied by parents.

All juveniles must be under cover by 9 p. m., under an order signed by Mayor John D. McCarthy to bring a halt to vandalism and after-dark pranks. Three blasts from the fire station whistle is the curfew signal.

U. S. Judge Refuses To End Sedition Trial

WASHINGTON, June 20 (AP)—Judge Edward C. Eicher today denied a defense motion for a directed verdict of acquittal for the 29 defendants in the mass sedition conspiracy trial.

Eicher announced the decision at the opening of today's session. The trial, now in its 10th week, still is in the preliminary testimony stage.

Churchill Reveals 1940 Nazi Invasion Spiked at Start

LONDON, June 20 (AP)—Prime Minister Churchill told Commons today a German attempt to invade Britain in 1940 had been smashed before heavy concentrations of ships and troops were able to leave continental ports.

Churchill's statement came in response to a series of questions from the floor by Maj. Vyvyan Adams, who asked the prime minister if he could give the House details of a reported Nazi invasion attempt.

Churchill first said he had nothing to add to the government's previous non-committal replies, but when Adams asked whether "the enemy set in motion the apparatus of seaborne invasion," the prime minister said:

"I do not quite know what it meant by setting in motion. Setting in motion in the sense of crossing the channel, 'no,' but setting in motion in the sense of making very heavy concentrations of troops and ships to cross the channel, 'yes.'"

Laborite Emanuel Shinwell then asked:

"I suppose he (the prime minister) could say that if such an invasion was made, at any rate it was unsuccessful?"

Churchill smiled and answered, "Yes."

"Did any of this shipping ever

emerge from ports across the channel?" Adams pressed.

"Not to my belief," the prime minister said. "A great deal of it was sunk in ports and then they changed their minds."

Pettis vs. Hale Is Maine's Unique Race for Congress

PORTLAND, Me., June 20 (AP)—A September battle between a young CIO labor leader and an anti-New Deal Republican seeking a second term as Maine's First District Congressman was indicated today by unofficial returns from the state primary.

Andrew A. Pettis, 38-year-old president of the union which bargains for 25,000 South Portland shipyard workers, won a three-way race for the Democratic nomination, but in his own party's primary lost overwhelmingly to Republican Rep. Robert Hale, 54-year-old Portland lawyer.

Treasurer of the Portland Republican City Committee until he entered the congressional races in his first attempt to win major public office, Pettis was endorsed by the Maine United Labor Committee, an affiliate of the CIO's Political Action Committee.

In the only other major contest

in yesterday's light balloting, State Senate Pres. Horace A. Hildreth of Cumberland defeated Roy L. Fernald of Winterport, former state senator, and House Speaker F. Ardine Richardson of Strong—they finished in that order—for the Republican gubernatorial nomination, usually a ticket to final victory.

Hale received 22,379 Republican votes by complete unofficial returns, to Pettis' 3177. The latter won the Democratic nomination with 2412.

Paul L. Julien of Waterville was named Democratic gubernatorial nominee; U. S. Reps. Margaret C. Smith of Skowhegan and Frank Fellows of Bangor, both Republicans, were renominated in the second and third districts, respectively, and David N. Staples of Waterville and Ralph E. Graham of Brewer are the respective Democratic nominees, all without contest.

McGrath Murder Prober Dies

Stricken with a heart attack in his Scituate home after many hours of volunteer work in the probe of Frances McGrath's murder, John H. Murphy, 57, business agent of the State Department of Correction, died suddenly today in Weymouth Hospital.

Murphy had been a volunteer in the six-day search for the young-sinner.

He was appointed to the correction department post by Judge Frederick J. Dillon, former correction commissioner, in 1934. He was previously a member of Gov. Ely's office staff as executive messenger.

He leaves his widow, Marion Dooley Murphy, formerly of Dorchester, and three children. Before her marriage in 1935, Mrs. Murphy was a teacher in Williams School, Roxbury.

U. S. Using Plane With an Elevator

WASHINGTON, June 20 (AP)—Presidential Secretary Stephen T. Early said today a special plane equipped with a passenger elevator is in use in this country for the transportation of various government missions.

In response to a reporter's question, Early said the plane was not constructed particularly for the use of President Roosevelt or any one government official.

Questioned about the elevator-equipped plane, Early said:

"When the plane was being built by the Douglas company six months or so ago they announced they were building a plane with an elevator.

"If you ask the air forces about this plane they'll suggest the government wanted it not for the President but for carrying government missions. It has been in full use for several weeks. It is in routine service in this country now and undoubtedly may go abroad in time. There are no plans at all for its use by the president to my knowledge and belief."

The air forces previously declined to discuss the plane.

Lists Switched, Nazis Jail Pals by Error

LONDON, June 20 (AP)—French underground sources said today when the Germans combed Paris and hauled hundreds of Frenchmen to concentration camps on D-Day, they discovered too late they had rounded up the most loyal Vichyites instead of persons with Allied sympathies.

At the last moment, underground leaders succeeded in switching their own file of German collaborationists for the Germans' list of suspects, these sources said.

AT BOND RALLY—Marine Sgt. Steve Kupiec of Newburyport tells how he and 14 others spent 11 days on a wrecked hospital plane which was stranded on a Pacific reef . . . at bond rally in the Holtzer-Cabot Electric Co. With Steve is Carol Thurston of the films.

Doctor Quizzed 4th Day at Noxon Trial

By PAULINE WARREN

PITTSFIELD, June 20—Dr. Alan R. Moritz of Harvard returned to the stand in superior court today—his fourth straight day in the trial of John F. Noxon, Jr., charged with the murder of his baby son.

The state's chief medical expert was in for still another day of cross questioning by Defense Counsel Joseph B. Ely, who fired question after question that had been compounded by the medical experts of the defense.

In the earlier line of questioning, they were almost all highly technical questions dealing with caloric energy, ohms, amperes, volts and all matter of topics in physics.

SAYS DEATH DELAYED

Ely read his questions from papers while the defense staff of doctors and scientists bent forward to catch every answer from the Harvard expert and state pathologist.

Ely frankly stated, "I don't know what half these questions are about, but that's what is written on these papers I have." Over and over, he asked Dr. Moritz concerning the amperage and ohms which might flow through bare wires under various conditions.

But through it all, Dr. Moritz clung to his contention that little Lawrence Noxon did not die instantly when the current struck.

MRS. NOXON AT HOME

In direct testimony, the state pathologist testified that in his opinion more than 15 minutes' contact would be necessary to produce such burns as were found on the baby's arm.

But under cross-examination, he admitted that they could have

HUNGER STRIKER?—Chesler Lake, field representative of the Rural Electrification Administrator, today was waiting a reaction in connection with his threat to start a hunger strike until the President "or Congress free the electrification program for the farmers of America." He charged politics were forcing his ouster.

Associated Press Wirephoto

been caused in much less time under certain conditions. The conditions centered around the contention that the baby's diaper was wet.

During the lengthy medical controversy and discussion of the condition of the baby's body, Mrs. Noxon, a constant attendant at the trial, remained at home.

Myron Taylor at Vatican

ROME, June 20 (AP)—Myron Taylor, President Roosevelt's special representative to the Vatican, arrived but declined to comment on his mission.

Longest Day

For those who like to be technical, summer officially arrives in Boston tomorrow at 9:03 a. m.

At that exact second, the sun will arrive as far north as it will travel this year, and from now on the days will grow gradually shorter.

Tomorrow will be the longest day of the year, with 15 hour and 17 minutes of daylight.

Ship Welder Pleads Guilty

One of 24 welders, arraigned in federal court today on charges of defrauding the government by alleged fake payroll claims at the Hingham plant of the Bethlehem Shipbuilding Corp., pleaded guilty before Judge Sweeney.

The welder, George W. Bodenschatz, 32, Middle st., Braintree, was ordered held in \$1000 bail at the request of Asst. U. S. Atty. Joseph M. Hargaden. Bail of \$1000 was also set in the case of Edward F. McGunagle, Jr., West Ashland st., Brockton, who with the remaining defendants entered pleas of not guilty. Bail of \$500 each was set in the other cases.

As the welders, indicted last week, forced court today, the federal grand jury continued its inquiry into 1000 cases of alleged payroll fraud at the plant with expectation that additional indictments would be returned later today or this week. Forty-one were returned yesterday.

Others arraigned today included:

Maurice Baron, 25, Walnut st., Brookline; Anibal Batist, 24, North Bow st., Milton; Rene Bianconi, 39, Thorndike ave., Dorchester; Alfred N. Charvet, 25, Russell st., Acushnet; Arnold Estrella, 26, Bourne st., New Bedford; Charles C. Farrara, 36, Howe st., Framingham; Edward P. Fortin, 48, Crescent rd., North Weymouth; Joseph L. Frongello, 20, Chestnut st., Cambridge; and Michael J. Kiefer, 28, Manthorne rd., West Roxbury.

Charles G. Peinigell, 32, Peary ave., Westbridge; Arthur Peterman, 15, Weymouth; Jack S. Raisanen, 21, Coleman st., Gardner; Philip G. Calane, 26, Tyler st., Boston; Ralph Scatini, 31, Lexington; Watertown; Hyman Paris, Lander rd., Malden; Joseph L. Blum, 24, Winter st., Watertown; Bernard Silver, 31, Upland rd., Quincy; Stephen P. Tuskegee Head to Be Luncheon Guest Here

Dr. F. D. Patterson, president of Tuskegee Institute and chairman of the United Negro College Fund, will be guest of honor at a luncheon Thursday at Boston City Club tendered by business, educational and civic leaders.

The luncheon, at which W. Cameron Forbes, former ambassador to Japan will serve as toastmaster, will precede a mass meeting to be held Thursday night at Ebenezer Baptist Church, Roxbury, at which Dr. Patterson will be the principal speaker.

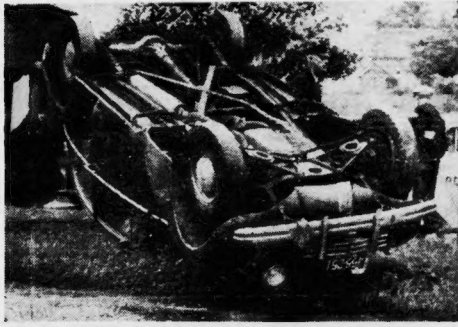

Train Smashes Truck, Driver Escapes

HOLBROOK, June 20—Arthur J. Niklason of Belmont st., Brockton, had a narrow escape when a southbound train struck his 10-ton trailer truck. The vehicle was demolished and tons of reclaimed rubber were strewn along the tracks.

DAD'S AWAY—Eugene J. Zweigle of Freemont ave., Everett, poses for a picture to be sent to his dad, C. M. Eugene R. Zweigle, who is serving aboard a U. S. cruiser, and has never seen him . . . being busy fighting in the campaigns of North Africa, Sicily and Italy.

Archer Hits Vast Traitor Plot

By TOM VHELM

Special to the Boston American

CHICAGO, June 26.—While millions of American boys and girls are fighting on foreign soil to safeguard this country from dictatorship, "traitors in our midst seek to destroy America," Gleason L. Archer told the opening session of the American Democratic National Committee.

The session has attracted prom-plan the strategy of preventing 16
 16 anti-Roosevelt Democrats years in the White House for
 from the Midwest and South to President Roosevelt.

Among those of prominence in attendance are Sen. Lee O'Daniel of Texas; former Sen. James A. Reed of Missouri, an anti-New Deal firebrand; former Gov. Eugene Talmadge of Georgia and Otha D. Wearin, former Congressman from Iowa.

USED F. D. AS DECOY

Dr. Archer, president of Suffolk University, Boston, is chairman of the conference. He said:

"Hillman and the CIO and Browder and the Communists used Roosevelt as a decoy to capture the Democratic party. Look at the roster of New Dealers. There isn't a real Democrat among them."

"Here was a rich man's son who never earned a penny in his life except at politics. Here was a consummate actor, who could declaim whatever was written for him."

"They have completely poisoned the minds of Young America. American heroes of history have been debunked and belittled, and American history is no longer required in some universities and colleges. This they have accomplished to pave the way for the world revolution."

SINISTER FORCE

"In the Sacco-Vanzetti case, Frankfurter led the defense. Those who would remake America got their first opening. Communists of the world raised millions of dollars, ostensibly for defense of the payroll murderers, but in reality the money went to spread the idea of a world revolution. The Communists appealed to soft-headed ministers and professors."

"Had the American people known at the time that the sinister force behind the Sacco-Vanzetti defense was to be the high priest of the New Deal, they would never have elected Franklin Roosevelt."

Archer said any coalition with the Republican party would depend on whom that party nominated.

Preceding the opening of the conference, Sen. O'Daniel said the hatred of Roosevelt in Texas was even "greater than that against Al Smith" in 1928, when Texas, for the first time since the Civil War, went Republican.

OPPOSE FOURTH TERM—Members of the American Democratic National Committee meet in Chicago to draft plans for their fight against a fourth term to President Roosevelt. Shown are (l. to r.) Eugene Talmadge, former Georgia governor; William C. Crock, ex-governor of Michigan; Dr. Gleason L. Archer of Boston, committee chairman, and James A. Reed, former Missouri senator.

Associated Press Wirephoto

Chiang, Other Notables Welcome Wallace to China

By SPENCER MOOSA

CHUNGKING, June 26 (AP).—Vice-President Wallace, visiting China as the personal representative of President Roosevelt, arrived in this war capital today and immediately urged closer relations between China and Siberia.

The Vice-President, in a statement distributed at the airport after his arrival from Russian territory, quoted Dr. Hu Shih, former Chinese ambassador to the United States, as having said the boundary between Siberia and China "should be like the frontier between the United States and Canada—not one of separation, but one of joining friends together."

Wallace said he wanted to see the land, talk with farmers, visit Chinese and American soldiers and above all discuss with Generalissimo Chiang Kai-shek "matters of mutual interest and concern."

Generalissimo Chiang welcomed him at the airdrome—a high compliment not required by protocol, since the generalissimo is the head of the state.

Mrs. Chiang also was at the airdrome, but remained in a curtained motor car. Wallace, Generalissimo Chiang and U. S. Ambassador Clarence E. Gauss boarded the car after the Vice-President had shaken hands with the assembled notables, and drove to the presidential villa for tea.

Wallace planned to stay at the United States Embassy.

Wallace flew to Chungking from Tiwua, Sinkiang. His first stopping place in China was at an intermediate landing field some-

were in Szechwan province, where he waited for several hours for visibility in the Chungking area to improve.

Dorsey Seeks Public Hearing

Found guilty on charges of neglect of duty and deducted to the rank of lieutenant, Capt. John A. Dorsey, former commander of the Charleston police station, today was seeking a public hearing before Police Commr. Thomas F. Sullivan.

Wendell P. Murray, counsel for the demoted official, said he was filing an appeal at once for the hearing.

Sullivan had no comment to make.

Mrs. Higginson Still in Coma

Mrs. Francis Lee Higginson, Jr., 31, victim of a mysterious bludgeoning, remained in unchanged condition at New England Deaconess Hospital today while Connecticut investigators stood by, hopeful she might regain consciousness and name her attacker. The socialite victim has been in a coma ever since she was savagely beaten in her West Cornwall, Ct., home early Friday. Doctors here said no brain operation or further blood transfusions are planned unless there is a change for the worse.

Price Control Bill Close to Passage

WASHINGTON, June 20 (INS)—Senate-House conferees early today reached an agreement on the price control extension bill with the exception of the Bankhead cotton escalator amendment assailed by the OPA as inflationary.

The bill, as agreed upon, calls for a one-year extension of price control from July 1, with liberalizing amendments.

The conferees agreed to make one more effort, before the Senate meets, to dispose of the Bankhead amendment. Failing, Senate conferees will ask for a new vote on the provision.

Important actions of the conferees include:

AID LANDLORDS

Accepted with modification the Hartley "highest price line" amendment. As agreed upon, amendment forbids OPA from imposing regulation on retailers confining them to selling goods under their highest price line on a certain date.

Accepted with modification the Isaac rent amendment. Provision permits rent adjustments favorable to landlords in cases where, due to peculiar circumstances, the rent was too high or too low on the freeze date. Also provides upward adjustment where substantial hardships arise due to increased taxes or operating costs.

Agreed to amendments freeing roll-back subsidies, and prohibiting payment of existing subsidies after June 30, 1945.

Accepted a provision prohibiting OPA from fixing price of fish below 1942 price level.

Agreed on modified Chandler-Weeks amendment under which individual or firm in treble damage suits can offer as defense that price ceiling violation was not willful.

Kept mandatory government loan rate on agricultural products at 90 per cent of parity, except that on cotton it will be 92½ per cent.

Accepted provisions outlawing so-called kangaroo courts of OPA, under which a person charged by OPA with violating a price ceiling would be denied privilege of selling rationed goods.

Bag Lost in Bee Battle Returned

HARTFORD, Ct., June 20 (AP)—The handbag which Mrs. Arthur Menkin of New York city lost on a street here while she and her husband were ejecting a bee from their automobile ought to reach her in the mail today.

Ralph H. Beckley of West Hartford, who found it, said: "It looked like a woman's purse, but when I picked it up I thought it had tools like wrenches in it. In fact, it was so heavy it cost me \$2.80 to mail it to Mrs. Menkin."

In reporting her loss to police, Mrs. Menkin said the purse contained \$35 and valuable papers.

Eggs-actly

SOUTH PACIFIC HEAD-QUARTERS (AP)—Capt. Earl Gaylord, in charge of an army camp mess hall, posted this sign at the front of the chow line:

"Take what you want—want what you take."
It proved good advice for ordinary chow but the other morning fresh eggs were on the menu—one for each man. So Gaylord appended this postscript:
"But only want one egg."

Coward Heiress Wed To N. J. Senator's Son

RENO, June 20 (INS)—Miriam Coward Rice, heiress to the Coward shoe fortune, was married here to Arthur M. Pierson, Jr., son of the New Jersey state senator.

With N. E. Boys Overseas Many College Men Serving in Ranks

By HUCK FINNEGAN

It has been said repeatedly that this is a college man's war, the inference being that a degree means a commission. 'Tain't so, McGee. At least it isn't so among the boys we have met overseas.

For example, there is Johnny Galuzian, all-scholastic shortstop at Brighton High in '28. At Lance Richbourg's behest, Johnny attended University of Florida. He joined the Braves in '33, but remained only two months because Bill McKechnie had the club in the pennant race until September, and Bill Urbanski and Rabbit Maranville were going great guns around second base.

PLAYED TWI BALL

Johnny played a lot of twilight ball—Mass. Knitting Mills, Norfons, Casays, etc. He's an intelligent chap and was a teller in the Home Savings Bank, 75 Tremont st., before the war. ("How's Ernie Hoftyzer?" he asks.)

He did qualify for a commission in the Navy, but never received it. Johnny used to live at 449 Western ave., Alston right at Barry's Corner. Four years ago he made Catherine Bernard, Gloucester school teacher, his wife, and their residence is at 3 Gould ct. in that fishing center.

He expects to be a father in November. He's a corporal in the finance department.

Max Hershman, 29, graduated from Public Latin in '32, Clark University in '37, the School of Optometry, 1112 Boylston st., and taught three years at the last-named place.

He married Mollie Cohen, a Chelsea girl, who is now an Army nurse stationed at Whidden Hospital in Everett. They met in a YMHA summer camp (Bauer Crest) at Amesbury.

Prior to the war, Max worked for Donovan the Optometrist at 5 Bromfield st., wants to be remembered.

Pvt. Max Hershman
Roxbury

bered to Dr. George Cronin, also to Moe Karp of 45 Brookledge st., Roxbury.

His parents, Julius and Lena, live at 6 Vesta rd., Roxbury. Be-spectacled, six-foot Max is a private.

HOLY CROSS ALUMNUS

Thomas Twomey, 537 Whitney ave., New Haven, graduated from Holy Cross in '33, and insists that Phil O'Connell was a better quarterback than BC's Henry Toczykowski of Sugar Bowl fame. Twomey taught school in Jersey City, then worked for the General Chemical Co. in Pa. He's a private.

Fred Garland, 25, of Pelham, N. H., graduated from Lowell High in '37, University of New Hampshire in '41, and received a masters' degree in animal husbandry from University of Maine in '43. That helped him operating the family's 350-acre farm at Pel-

Pvt. Robert H. Reed
Quincy

ham, if it didn't raise his military rank. Fred is a private.

His younger brother, Newton Garland, is a V-12 at Cornell, a blocking back of promise, and may get his commission before Fred. Newton topped his class with a 92.5 average.

James J. Kenney, 54 Crown st., Hartford, not only graduated from Trinity College in '38, but captained the varsity basketball team. He was a buddy of Steve (AP) O'Leary's younger brother Francis, and of Bob Repass, who opened the 42 season as shortstop for Washington. Kenney is a sergeant in the Army postal service.

Robert H. Reed, 26 Roberts st., Quincy, received a degree in industrial engineering from M.I.T. in '38, and was working at Fore River until the Army put him in the engineers last fall. Reed used to live in Winthrop, and his parents, Mr. and Mrs. John T., live at 12 Court rd. in that seaside resort.

He moved to Quincy after he married Sigrid Johnson, a native of the City of Presidents. He has a sister, Marion, in the Marine Corps, stationed at Edenton, N. C. Reed's a private.

FATHER A CAPTAIN

Fred Carley, P. O. Box 349, Waltham, graduated from Waltham High in '36, and took a degree in chemical engineering at Tufts in '41. He used to run the half-mile and 1000 for Dinger Dugault there, and made his letter while surrounded with headliners like Hall, Dugger and Atkinson. ("Remember me to Dinger and Pop Houston, will you?")

He's a private and doesn't feel proud of himself—his father, Howard, was just retired as a captain from the medical corps. Fred married Ruth McBurns, a Waltham girl.

Arthur Sharistanian, 74 Fox st., Worcester, is a registered professional engineer, "but I didn't wait to get my degree from Worcester Poly." He helped design the plans for the expansion of Camp Edwards in 1940 and later worked as a civil engineer for the Norton Co. in Worcester.

He married Elvira Gasale, a Worcester girl, and they have one child, Janet Mae, who recently passed her first birthday.

He used to visit Boston frequently "and one thing I'd rather have than a commission, is a lobster at the Union Oyster House." He's a corporal.

That isn't all the college men we've met who are not commissioned, but it's enough to give you an idea.

PVT. FRED GARLAND

The War Today

Hitler Seen on Last Legs With Men, Planes Gone

By J. M. ROBERTS, JR.
(Substituting for DeWitt MacKenzie)

Many observers have been incredulous at the seeming German ability to keep up the pace indefinitely. In 1939 it was quite generally assumed she could not possibly support a long war. That she has been doing the seemingly impossible is all the more reason she cannot continue, that the western front adds the final unbearable cunco to her load.

Pilots report widespread German use of horse-drawn transport in France. That means bombing and raw material shortages have seriously cut motor output, or that Germany is terribly short of gasoline.

The number of foreigners impressed into Hitler's Atlantic wall legions probably means reserves of Germans for a last ditch fight nearer home, but it also means the enemy is grabbing up twigs and gravel to continue a fight he started with a finely tempered sword.

The Germans claim 8,000,000 men. Half of them must be in supply service or are occupation troops. More than 2,000,000, probably 3,000,000, are seeking some means of stopping the Russians. Hitler is out-manned.

Before the war, Germany had everybody buffaloed about her air force. Reports said she had 10,000,

15,000, even 20,000 fighting planes. It is doubtful now if she ever could have put up more than 5000. Despite talk of "reserves" for final defense of the homeland, there is good reason to believe the Luftwaffe, on a percentage basis, is about where the RAF was in September, 1940. And the Allied fliers aren't going to quit.

Mustang Fliers Bag 13 Planes

AN AMERICAN FIGHTER BASE IN ENGLAND, June 20 (AP)—A Mustang fighter group shot down 13 enemy planes in a milling, three-minute sky battle over the Baltic sea without loss to themselves today and broke up an attack on American bombers by 50 twin-engine enemy fighters.

The Mustang group was led by Maj. Henry B. Kucheman, Jr., of Richmond, Va., and Capt. Leslie D. Minchew of Miami, Fla.

"It has been a long time since we found that much meat in the frying pan," said Maj. Kucheman, who shot down one ME-109 and damaged two others.

You Have Two Days To Register as Voter

Chairman William A. Motley of the Boston Election Commission issued a reminder today that only two days remain for residents not on the voting list to register so they may be eligible to vote in the state primaries on July 11.

District offices in each of the city's 22 wards will be open from 6 to 10 tonight and tomorrow night, and election department offices in City Hall Annex are open on both days from 9 a. m. to 10 p. m.

Boston American, June 20—9

House Warned Of Red Control

By DAVID SENTNER

Boston American Washington Bureau

WASHINGTON, June 20—Constitutional representative government may be lost to the American people in the coming election if they do not awaken to the powerful infiltration of Communists into the political field, Rep. Fred E. Busbey of Illinois, warned the House today.

Presenting statistics showing that more than 20,000,000 men and women had failed to vote in the 1940 presidential election, Busbey maintained that a similar failure to go to the polls next November might be the direct contribution to the downfall of the American form of government.

"The Red spectre of Communism is talking our country from east to west, from north to south, unrecognized," declared Busbey, "But the sinister purpose is there, thriving on our unsuspecting population, particularly in communities where there are large groups of factory and industrial workers."

Fifteen cents more brings you our new 32-page Needlecraft Catalog... 133 illustrations of designs for embroidery, knitting, crochet, quilts, home decoration, toys.

Nazi Captive

WITH EIGHTH ARMY, PERUGIA, June 20 (AP)—Cpl. George Smith of Stoke-on-Trent, England, came riding down the road on a motorcycle today with a German parachute trooper holding on behind.

"I was looking for a road for ambulances," Smith said, "when he came out of the woods and said he was tired of war and asked to be taken in."

1930 Endurance Flight Winner Killed

ST. LOUIS, June 20 (AP)—Capt. Forrest O'Brien, 48, who with Dale Jackson established a world record for endurance flying in August, 1930, was killed late yesterday in a plane crash at El Paso, Tex.

O'Brien and Jackson set their record of 647 hours 28 minutes and 30 seconds over St. Louis, refueling in the air. Jackson was killed Jan. 6, 1932. The two fliers shattered the record of the Army's "Question Mark," set in 1929, by Maj. Carl Spaatz, now Lt.-Gen. Spaatz, commander of the U. S. strategic air forces in Europe, and Capt. Ira C. Eaker, now lieutenant-general commanding Allied air forces in the Mediterranean.

UNSIGHTLY HAIR

PERMANENTLY REMOVED BY SHOCK WAVE METHOD MARJORIE SULLIVAN ELECTRIC NEEDLE SPECIALIST 59 Temple Place Room 912 Tel. 6264

Actual totals probably are somewhat higher since there has been some delay in reports from outlying sections.

One of the best showings was turned in at the Boston Port of Embarkation, where cash sales crossed the \$300,000. Sixty per cent of civilian employees were enrolled in the campaign, many of them increasing present payroll deductions.

WAR WORKERS AIDING

War workers were among the thousands who are awake to added responsibilities that have come since the Normandy invasion.

More than 1000 employees at the Holtzer-Cabot Electric Co. thronged three rallies at the Jamaica plain to hear buying pleas from Film Actress Carol Thurston and Marine Sgt. Steve Kupiec, 27, of Newburyport.

Miss Thurston is in Boston for the bond premiere of "The Story of Dr. Wassell," while Kupiec, holder of a presidential citation and other honors, is a hero of Guadalcanal. Wounded there, he was stranded 11 days on a coral reef when his ambulance ship was shot down by Japs. He was a year recovering.

BOOTH SALES HEAVY

At the same time, the War Finance Committee reported that Bay States had purchased \$16,100,000 worth of the E bonds, about 15 per cent of the state quota of \$112,000,000.

Sales in Boston bond booths were reported heavy.

The weekly report showed that approximately 50 booths in railroad stations, department stores, office buildings and theaters piled up a total of \$226,768.50 for the week ending June 15.

Valentine women sales forces at the same booths sold \$45,295.60 worth during the preceding week.

Bond sales at the South Station, for example, were \$2025 the week ending June 8 and \$6000 last week. Booths in theaters increased the sales of bonds from \$5093 to \$29,643.75. Department stores sales jumped in the same period from \$17,000 to \$116,000.

Capture of Elba Aids Italy Drive

By LYNN HEINZERLING

ROME, June 20 (AP)—Allied forces pressing northward on the Italian mainland entered Perugia, major communications center 85 miles north of Rome, after the German position had been weakened by conquest of Elba by French colonial troops.

The French crushed the last stubborn resistance on Elba yesterday with capture of Porto Longone.

Allied air forces almost destroyed the steel mill at Portoferraio, principal city on Elba.

Perugia was entered by Eighth Army troops which were encountering spotty resistance today within the town.

The Fifth Army advanced more than nine miles north of Grosseto, 22 miles beyond Orbetello.

McGrath

Continued from Page 3

prints found on the lacquered handle of her handbag.

Fingerprint experts had reproduced two of them today with sufficient clarity to compare them with those of any suspect taken into custody.

But they will not have to wait for a human comparison. The prints will be checked with a number in files of the Coast Guard identification bureau. War workers in any waterfront area are photographed and fingerprinted by Coast Guard experts, in the interests of national safety.

Another clue of possible substance is a laundry stub, found near the child's body. After visiting South Shore laundries, police found a duplicate check. The laundry it represented had not been collected by the owner.

The check found at the scene had been torn so the owner's name was removed. He or someone else had listed various articles of clothing on it.

His description was given authorities.

Police also found a Scituate grocerman who gave them a description of a man to whom he sold figs, nuts and frankfurters. The autopsy showed such food to have been eaten by Frances McGrath four or five hours before she was criminally attacked and slain.

This man, police said, fits the description of the laundry check owner.

Three Scituate men are under suspicion. Two, who are related, vanished shortly after Frances McGrath disappeared, June 10. They are known as acosters of women.

The third, estranged from his family, had been living in a woods cabin, but police have not been able to find him.

CAMP INSPECTED

While detectives were searching for the suspect, other investigators, including Dr. Joseph Walker, state police chemist, and State Police Sgt. George Roach made a detailed inspection of a camp in Stockbridge rd., Scituate.

Under the glare of a special portable lighting system, they carefully examined the walls, floors and furniture.

Although indicating that they believed the case was nearing its solution, authorities maintained strict secrecy about their move-

ments on the trail of the suspect. They likewise refused to explain the purpose of the examination of the camp in Stockbridge rd.

They did reveal, however, that the man to whom the evidence now points was one of 200 persons whose records were investigated during the last week.

A Norwell woman reported that her daughter, Mary E. Dwyer, 12, of Winter st., had heard screams between 9:30 and 10:30 o'clock on the night the McGrath youngster disappeared. Questioning the girl, police learned that the screams came from the woods about an eighth of a mile from where Frances' body was found.

New Air Base For MacArthur

By Associated Press

Gen. MacArthur's forces today have gained a new air base in Dutch New Guinea. He announced the establishment of an airstrip on Owi island off Biak.

Ground forces stormed a strongly-held ridge near Mokmer air, broke and wiped out Japanese who had thwarted drives toward two other Biak airfields.

MacArthur's airmen hit Truk again and shot down 12 of 25 intercepting Zeroes, with a loss of two Liberators.

In the fighting in Burma Chungking announced the capture of Tiansup, Japanese stronghold 40 miles north of Myitkyina.

Parallel columns of British imperial troops striking south from Kohima toward Imphal have advanced 17 miles.

Nazis Hold All Males In Town, Execute 100

ON FRENCH-SWISS FRONTIER, June 20 (AP)—The Germans have arrested all males in Bellegarde, center of last week's raid by the French Maquis, and held several hundred of them today as hostages against further Partisan violence. More than 100 were reported executed in northern France after a series of sabotage attacks.

and whether the Germans can manage to swing the muzzles of the port's long-range guns from the sea to repel a land attack.

ISLAND GUNS

The German-held channel islands have guns capable of shooting to the Cherbourg Peninsula at extreme range, but headquarters said there is no reason to believe "they can seriously interfere with the American advance."

The enemy has some advantages in terrain but it can be assumed he is more tired than we are," a headquarters spokesman declared.

The Ninth Division, advancing from Briquebec, encountered only spasmodic resistance.

German troops all along the north front were reported apparently badly disorganized. Front dispatches declared many of the high Nazi officers had been killed and in some sectors units had been cut to pieces.

No gains were reported in the Carentan area to the south, and it seemed apparent Bradley was content merely with holding actions there while driving all-out for Cherbourg.

BRITISH ADVANCE

After the capture of Tilly-sur-Seulles, British patrols pushed as far as Hottot, a mile and a half to the south, without encountering serious resistance.

The situation remained static around besieged Caen, where Allied forces are being methodically built up for a strong drive.

The building up of the beachhead forces and supplies was hampered yesterday, however, by a wind of 25 miles an hour which whipped up five-foot waves along the beaches. A 60-mile gale swept the channel.

More than 1000 prisoners were taken yesterday. Associated Press War Correspondent Don Whitehead, with the American forces, said last night that Germans were surrendering "so fast the units do not know how many they have."

Debs in Joint Debut

By BETTY ALDEN

NO ONE HAD to show Boston debs the way home from the doubleheader debut luncheon today honoring Jeanne Barstow and Barbara Morris.

Jeanne and Barbara saw to it that their sister debs can tell north from south by providing novelty favors in the form of combination compasses and key rings. They were made of bright colored plastic and served as place cards too, tied with apple green ribbon and clusters of cigarettes. The luncheon tables were festive with white summer flowers and green satin bows.

The party was in the State Suite at the Copley Plaza. Both girls wore attractive summer frocks of

JEANNE BARSTOW — gives compasses to sister debs.

Javender linen. Mrs. Francis V. Barstow, Jeanne's mother, chose a navy sheer, and Barbara's mother, Mrs. Philip R. Morris, wore a modish black and strawberry pink dress.

Jeanne and Barbara graduated from Beaver last week and are provisional members of the Junior League. Among the many guests were those at Jeanne's table—Anne Withington, Grace Greenwood, Elizabeth Breed, Frances Stratton, Nancy Howes, Phyllis DeFord and Mary Freeman. Barbara's head-table guests were Jane Alles, Virginia Brown, Barbara Sosman, Ann Sargent, Barbara Rogerson, Ethel Thurber and Miriam Jeffries.

Except for a couple of weeks vacation with her parents at Martha's Vineyard, Barbara will have a full summertime program of volunteer hospital work. Jeanne is going to Wellesley in the fall.

POST DEB JANE BRECKENRIDGE of West Newton is in a happy hustle and bustle of preparations for her wedding, which has been advanced from mid-July to next Saturday. Her fiancé, Ens. Chopin Bemis, USNR, is getting

leave sooner than expected so they'll be married June 24 in Leslie Lindsey with a reception at the Ritz. Sylvia Dennison, who came out with Jane in 1942, will be maid of honor.

THE ENGAGEMENT of Roberta Halloran and Ensign Edwin "Terry" McGowan, USNR, who popped the question by mail from the Pacific, will be celebrated Sunday at a reception given for Buff by Terry's parents, Mr. and Mrs. Edwin McGowan of Wellesley Hills. Buff and her mother will be here from Washington, where her father, the late Col. Roy Halloran, was chief of the Army division of neuropsychiatry.

Buff, former Boston debutante, has been studying voice with Reginald Werrenath. She is a junior hostess at the Stage Door Canteen in Washington and was in the first class of Nurses' Aides to graduate at Doctors' Hospital. Her father and Mr. McGowan were classmates at Dartmouth, where Terry was a student before joining up. He is on duty in the Pacific.

THE ENGAGEMENT of Mary Royce Baker and Frederick S. Carr, USNR, is announced by her mother, Mrs. Royce Baker of Marlborough St. Mary is the third of this year's debs to become engaged. The others are Anne Edwards and Nancy Eaton.

Heat Warning in Alaska

JUNEAU, Alaska, June 20 (AP)—A week-long heat wave brought an unusual warning to Juneau residents from physicians today—to remain out of the direct rays of the sun as much as possible.

Landing Attack in INVASION SHOW

The important part being played by chemical warfare will be brought home to Bostonians in a realistic landing attack, featuring a modern smoke screen, by squads attacking a "defended" island in the Charles river on July 4.

It's all a part of the INVASION BOND SHOW to be staged by military forces under auspices of the Boston Retail Merchants for the Fifth War Loan drive.

With the state anxious to dispose of 2,000,000 young trees, thousands of Bay Staters now have a chance to make Arbor Day almost a weekly event.

Young people's organizations and town committees may have lots up to 1000 free of charge, while private citizens who want to do a little valuable reforestation can get lots of 500 or more for as little as a penny each.

Details of the offer, made by the State Division of Forestry, can be obtained from Director H. O. Cook, 15 Ashburton pl., Beacon Hill.

Mexican Air Mission

LONDON, June 20 (AP)—The Algiers radio said today a Mexican air mission, headed by high-ranking officers of the Mexican Air Force, had arrived in North Africa en route to Italy.

Boston, American, June 20—11

Russell Hails GI Bill of Rights

Former Congressman Richard M. Russell, erstwhile three-term mayor of Cambridge, today hailed the GI Bill of Rights as the greatest legislative achievement in the history of the United States.

He stressed that major efforts of national legislators will be expected toward veterans' rehabilitation, in urging his election to the U. S. Senate.

Former Congressman Russell lauded the Hearst newspapers for leading the fight that has put veterans' benefits on a firm foundation, a campaign, he pointed out, that was maintained since the boys returned from the last World War.

POINTED OUT NEED

Russell said: "The GI Bill of Rights is the greatest legislative achievement in the history of the United States."

"The Hearst newspapers throughout the country deserve the major share of the credit in awakening the people of the United States to the need of meeting this emergency head-on to avoid the bread lines and bonus army that followed the last war."

"As a member of the American Legion, I am proud of the part taken by the Legion in helping to put the GI Bill across."

"Everyone of us has a stake in the war. We all have someone near and dear to us on the firing lines, 70,000 A DAY."

"These young men and women are returning to us now at the rate of 70,000 a day, and that rate is increasing."

"To see that all these young people are cared for immediately will be the major problem of our national legislators for many years to come."

"I pledge myself to do all in my power to see that those who suffered for us on foreign soil get everything to which they are entitled."

Civilian Butter Supply Will Remain As Is

WASHINGTON, June 20 (INS)—Forty five per cent of all butter produced in July and 30 per cent of that produced in August will be set aside for the military services and other war uses, the War Food Administration announced.

WFA added that civilians will receive about the same quantity of butter the next two months as they received in May and June.

BONDS TICKETS

The smoke screened invasion "attack" will be but one of the spectacles of a three-hour, thrill-packed program to which anyone may obtain a choice vantage by purchase of a war bond. Tickets will be issued only to those who buy war bonds.

Bombing of a cottage on a raft, a flame-throwing attack on an island pill-box, Coast Guard swimming through burning oil, rescues by breeches buoy and planes formations by Army and Navy planes, radio target boats and four service bands in continuous concert will be on the program.

South's Hot Wave Broken

ATLANTA, June 20 (AP)—A record-setting heat wave which gripped the South for three days ended last night as the face of September threatened.

Vote "Slackers"

"The man who can right himself by a vote will seldom resort to a musket."—J. Fenimore Cooper in The American Democrat.

THE CENSUS BUREAU has just released some figures on the potential and actual power of the American electorate that should cause grave concern to those who rightly identify the stability and continuance of a free, democratic America with the right to vote.

There are millions of vote "slackers" among us. This is a most dangerous condition to exist in a republic.

The Census Bureau estimates that there will be 8,666,555 persons of voting age in the country by next November.

Ballots cast in the 1940 election totalled 49,815,312, or 62.4 per cent of the potential total. If, therefore, there were no abnormal factors to affect the volume of voting this year and the ratio of election participation to potential voters were the same as in 1940, the number to go to the polls in November would reach the total of 55,327,930.

That would mean that MORE THAN THIRTY-THREE MILLION PERSONS qualified to vote will not go to the polls in the most momentous election this country has held since 1864.

MAKING due allowances for those in our armed forces who, for one reason or another, will not or cannot vote and a certain number of ill and incapacitated persons and those who travel, it would still leave us, let us say, 25 to 26 MILLION electors who, apparently, will not take sufficient interest in the issues before all Americans today to go around the corner (in many instances) and go through the simple operation of registering their opinion on matters currently and ultimately of the greatest importance to themselves, their families and their descendants.

In a word, it is estimated by the Census Bureau that about one out of every three qualified persons did not vote in 1940 and will not vote in 1944. This is not only humiliating while our men are fighting and dying for fundamental democratic processes but it is a DISGRACE.

Although the Census Bureau says that there has been a tendency for "an increasing proportion of the population to exercise the right of suffrage," the fact remains that the pivot of our rights and freedom is neglected by 37.6 per cent of the total population.

Here are further disgraceful figures evidencing this absence of interest in the use of our one great peace weapon—the ballot—according to the Census Bureau:

The highest 1940 voting percentage was in Illinois, 53.4 per cent. Indiana followed with 52 per cent and others were Delaware, 51.2; Colorado, 48.9; Missouri, 48.5; Nevada, 48.2; Ohio, 48.1; South Dakota, 48; Iowa, 47.9; New Hampshire, 47.9; Kansas, 47.8; New Jersey, 47.4; California, 47.3; Massachusetts, 47.

WHAT WILL AMERICA, the greatest advocate of total democracy of all time, say to the rest of the world when the finger of totalitarian dictators is pointed at us and they say:

"In many of your States NOT EVEN HALF of your voting population goes to the polls?"

The answer to this condition is, as the Hearst papers have advocated, a country-wide campaign of EDUCATION on the importance, the power and the need for universal voting.

Americans, you have a unique country with the greatest political institutions in the world.

The core of those institutions is your right to vote for whomsoever you choose without molestation or restraint. To throw away that privilege is NATIONAL SUICIDE.

Let us ALL begin now to RE-EDUCATE OURSELVES up to the level of our Constitutional rights and privileges.

Vote! Vote! Don't be an election-day "slacker!"

Washington Scene

By George Dixon

Distributed by King Features Syndicate, Inc. Reproduction in Whole or in Part Strictly Prohibited.

WASHINGTON, June 26—For a long time now I have been intending to do a piece about the White House press room. This is a hallowed spot. Practically a shrine you might say, so I approach the subject with all solemnity.

The original inspiration for this effort, I might admit, came from Mr. Cornelius Vanderbilt. Mr. Vanderbilt is a newspaper writer as well as a Vanderbilt—although either is generally considered to be a full-time job, and about all one man could be expected to handle without straining himself.

I was reminded of my intention today by a postcard from Mr. Vanderbilt, postmarked Des Moines, Iowa. In his newsy, gossip style, filled with anecdotes, he wrote as follows:

"Hello there!" The reason Mr. Vanderbilt inspired me to this task is that he wrote a piece about the White House some time ago but neglected to mention the press room. I considered this a gross oversight as it is easily the most fascinating part of the edifice at 1600 Pennsylvania ave.

For instance, Mr. Vanderbilt said the White House had been washed and polished, but he said nothing whatsoever about one of the newest and most intriguing decorations—a deer's head which appeared on the press room wall one morning after vanishing mysteriously from a joint in Poughkeepsie.

All I really know at first hand about the deer-swiping is that I was asleep in Poughkeepsie's Nelson House when something landed on my stomach. I woke up to find myself wrestling with the front end of

a deer. Out in the hallway I could hear raucous sounds, but I failed—having stubbed a toe in the dark—to catch the culprits.

SOMETHING TOLD me that the deer-tosser had not come into possession of the thing legitimately, so I wished to get rid of the evidence. I stole down the corridor searching for unlocked doors. When I located one, I tossed the head in.

Apparently, I made a faulty choice of rooms. Wild, feminine screams pursued me as I fled. Consequently, I was somewhat surprised when the bodyless beast reappeared on the President's private train coming back to Washington. Some stuffed-head lover had placed it in a seat and put a cigaret in its mouth. The air-conditioning produced just enough updraft to make it look as if the head were puffing away contentedly.

This caused people passing through the car to go suddenly swivel-eyed, providing vast merriment for the perpetrators. However, there is positively no truth to a story, subsequently written by Mr. Charles O. Gridley, president of the Gridiron Club, to the effect that the deer was alive—and with body attached—when it entered my room. Nor is there a particle of truth to his statement that I knifed the innocent beast and then called Rep. Hamilton Fish in the dead of night to come down and comfort the dying animal.

Anyway, that is as much as I care to tell about the deer head.

ANOTHER THING, about the press room: It has become almost tradition with its denizens to confuse outsiders

who telephone there. The regular number of the White House is National 1414. But under this is listed "press room" and the number "Metropolitan 9730." The latter, however, is a pay booth.

Many persons, notably lobbyists, conceive the idea that this is the number to call for press information. When they commit this error they are due to be badly perplexed, because, whichever reporter happens to answer the phone, always gives a screwy greeting.

For instance, the same man called five times when I was over there yesterday. The first time he was informed by the answering wag that it was Schultz's Bakery. He apologized, saying he must have gotten the wrong number.

He called again. This time it was Hickenlooper's Mortuary. Then the Lucy K. Montmerency, Drop Forge and Tool Co. Next, that it was the Wendell K. Willkie Carpet-Beating Parlors.

The man got wise—and wrath too—when he called the fifth time and was told it was the Eagle Laundry but that he would have to wait until Tuesday because the laundry was too busy right then to wash any more eagles.

THE CHOICEST one developed recently, with no attempt on the part of the phone-answerer to be funny.

A man called and asked if Herman was there. He was told nobody named Herman was on the premises.

"What place is this?" the man finally asked.

"This is the White House."

"Oh!" gasped the caller. "Excuse me—Mr. President!"

On the Side

By E. V. Durling

Eight o'clock—the music starts. The actor dons his paint. To greet a house filled to the brim.

Where joy knows no restraint. The stalls replete rock to and fro.

The pit is over filled, Yet every time they take a breath

Somewhere a man is killed.

—ELSIE JANIS.

THIS WAS written by Miss Janis in London during World War I. Had it been written today it would be just as timely. . . . All experts seem agreed the postwar home building boom is going to be really terrific. "Little Blue Heavens" will be built by the thousands. Needed for this forthcoming boom are more teams of male and female architects. The female member of the team should be a housewife of long experience. Reason so many women find taking care of a

house requires many hours per day is in most cases the fault of the architects. Having no housekeeping experience, the male architects have entirely ignored the angle of housekeeping efficiency. So, sir, if you want your wife to be contented and as domestic help you may engage to be happy I suggest you have your house plans made by a team of male and female architects.

QUERIES FROM CLIENTS: Q—Name state having largest percentage of its population in the armed services or forward siege at once. A—State you live in mind is Texas. . . . Q—Remember Billy Scanlan singing "This Pretty Little Flower I Give to You?" A—No, sir. But I remember "Doc" Scanlan pitching for the Dodgers. . . . Q—Is it unusual for two red-haired people to marry?—Not at all. I know many red-haired couples.

It is interesting to note usually all their children are red-haired. . . . Q—When a boy, did you ever smoke pin-head or cycle cigarettes? A—Don't recall the cigarettes you mention. Around our way the popular brand was Sweet Caporals. Some of the lads smoked sub cigarettes. Others went for cinnamon cigarettes. Ever hear of them?

ASIDES: On what corner of what city are the most newspapers sold daily? A Chicagoan claims it is the corner of State and Madison sts. in his city. He says that one day in seven hours he sold 5500 newspapers on that corner. . . . "Missouri is pronounced as if it were spelled Missouri," writes a Kansas City subscriber. "Anybody who pronounces it as 'Missourie' reveals an unforgivable ignorance."

SOME PEOPLE receive war news as if listening to the report of a game. Perhaps they are not altogether to be blamed. Some broadcasters act as if reporting a football contest instead of a battle in which thousands are dying. Was C. F. M. Joad who said: "War is a grim, ghastly reality of flesh, misery and dirt and mud and lice and mangled bodies; of reckless courage and beastly cruelty."

SIDELIGHTS: America's best hamburger is to be had at the Golden Pheasant Restaurant in Dallas. So states a Texan. Perhaps he is right. But I couldn't say. The only Golden Pheasant Restaurant I have been in is the one in San Francisco. When I go there I always have waffles and coffee. . . . Elaine Blaine of Wilkesburg, Pa., has been made a member of the My-Name-Is-a-Poem Club. . . . Was Faith Baldwin who advised: "Treat men you love as you would men you would not have at any price and your life will be one long emotional success." (Note—Miss Baldwin is probably in possession of something there. However, it works the other way, too. Substitute "women" for "men" in Faith's statement and it is just as good advice for a man. Perhaps even better.)

HOLLYWOOD, June 20 — "Seein' is believin'," as the saying goes, and the other day I saw the figures of the actual breakdown on the Warner fan mail. Lo and behold, leading all the others was Dennis Morgan. I am going to admit I am surprised. Not that Dennis isn't a good actor and a handsome gent, but he has never really had the cream of Warner stories, and I think the studio would be the first to admit that.

Ann Sheridan is the first to admit that. However, that is a little deficiency Jack Warner intends to remedy immediately, if not sooner. While he was in New York on his recent play-buying stint, he purchased an unpublished Cosmopolitan Magazine story, "Honey Moon Freight," by Donald Keyhoe, especially for Dennis, with Jane Wyman in the girl's role. Speaking of Janie, there's no dust gathering on her. Hear she's a standout in "Doughgirls."

WHY DID M-G-M let Ann Richards, the girl who plays opposite Brian Donlevy in "Amer-

ican Romance," slip out of their hands and let RKO nab her? Well, however it happened, the fact remains the former Australian movie star today signed a contract for two pictures a year, and to hear RKO tell it they have another Greer Garson in Miss Richards. She certainly has an interesting background. She was a passenger on the last boat from Pearl Harbor before the fatal day and she landed back in the country with \$15 in her pocketbook.

ANN SHERIDAN went East about two weeks ago. The same time Steve Hannagan left our village. She was scheduled to have a holiday in New York and to go somewhere overseas to entertain our boys. When she returns, Jerry Wald will have her next picture, "A Night at Tony Pastor's," ready for her.

I REALIZE the critics enthused about Deanna Durbin as a dramatic actress in "Christmas Holiday," but I missed her singing classical songs. So many girls can sing torch songs better than Deanna, but few can surpass her on the screen when it comes to operatic music. That's why I am glad Felix Jackson is preparing a motion picture tentatively called "Opera" for her, in which she sings the type of song that made her famous.

SNAPSHOTS OF HOLLYWOOD COLLECTED AT RANDOM: Betty Alexander, whose secret year-old marriage to Lt. Robert Abercrombie was recently announced, has dated the stork. She is a Warner lovely; Linda Darnell is home and very disappointed. She only reached Bermuda because word came of the invasion and she was not permitted to go to England. Ben Blue will be Gene Sheridan's overseas partner; Shirley Temple broadcasting from Letterman Military Hospital July 1 on a special servicemen's program. She will also be Mrs. Clarence Lindner's guest at the San Francisco Canteen. The Orpheum will welcome Lena Horne any time she will play a return engagement. She broke all records; Joy Hodges sends word she is leaving the East for "Dream With Music" to be with her husband, Sgt. Paul Dudley, until he goes overseas. Says she never had a feud with Zorina; Jody Hutchinson is writing special songs for his wife, Renee de Marco, to use in her new night club act; Marjorie Reynolds' husband, Lt. Jack Reynolds, has left for a theater of war for active service; Pvt. Lynn Walter Johnson in the Aleutians won the \$250 offered by Raymond Peige for the best original song, "New Dawn"; Diana Lynn graduates Wednesday from high school.

George Holland

Boston After Dark

OUT OF THE NEAR PAST: Now that Howard Dietz and Rouben Mamoulian and others have announced that they will produce "Rain" in a musicalized version, and that Ethel Merman will sing the role of Sadie Thompson, it should be passed along to them—in this corner's unvarying mood of cordial helpfulness—the news that Oscar Hammerstein has voiced an opinion as to the form "Rain" to music should make.

OSCAR AND THIS REPORTER were listening to Noble and King one night when the conversation—between songs and after turned to Jeanne Eagels and "Rain" and a show called "New Brooms," which Oscar and one Milton Gropper had written the year "Rain" was Broadway's reigning hit. (Sam H. Harris had produced them both) . . . Mr. Hammerstein has come along way since that year of 1923 . . . He has such hits as "Rose Marie," "Show Boat" and "Oklahoma" (to name just three) to his credit . . . The songs, "Make Believe," "Ol' Man River," "The Last Time I Saw Paris," "People Will Say," "The Surry with the Fringe on Top," and "Oh, What a Beautiful Morning" bear his imprimatur as lyricist.

GLORIA SWANSON was a quiet visitor to the Music Box . . . Mrs. Lyons, his wife, making her first visit to Boston . . . There seems no hope of re-venturing the Ritz Roof to its former policy of "name" acts—not for this season at least . . .

APOLOGIES TO B. M.: Sorry. We did not know you were adverse to publicity. Your name will not be mentioned again . . . Speaking of names, this column bestowed the name of his illustrious brother, Abraham, on Sam Finanski, the genial, unobtrusive partner of another real gentleman, Marty Mullin, in the M. & P. Theatres chain . . . Excuse, please.

EXCLUSIVE: Harry Sher, a young man from Montana who settled in Boston a few years ago and proceeded to make a fortune, has sold his famous Silver Dollar Bar, according to an authoritative (but unconfirmed report) reaching this desk . . . The reported price is six figures plus, and even the final five digits of the six figures sales-price is a sizeable sum indeed.

Broadway By Dorothy Kilgallen

NEW YORK, June 20—The Broadway oddity is one in a million. First of all, he was actually born right in New York! . . . He can explain to you Sinatra's success so that it makes sense . . . He can get tickets for "Oklahoma!" at the drop of a hint . . . At Reuben's he orders a Mary Martin Sandwich not because of what's in it, but because he's a fan of the Broadway Venus . . . You may think he's weird, but he's never been angry at a baseball umpire . . . He gives away bottles of Scotch as a present and he always makes room for what's in it. He's a Broadway oddity because at the Stork he addresses Sherman as "Mister Billingsley" . . . He never felt like taking a poke at anyone at El Moresco . . . He comes early to avoid the rush and has never missed the curtain going up on an opening night . . . His collars are unlike a John Barrymore and his shirts don't look like barber poles in repose . . . He still thinks the "Angry Pigeon" in "Early to Bed" was a girl's school, and he blushed characteristically at the jaffinale of "The Miracle of Morgan's Creek" . . . He never kissed a girl in a cab. The closest he ever came to a flirtation was picking up a gal's handkerchief and keeping it . . . He goes to the Stork to dance, not to ogle the Powers models.

scarcity of butter and steak never make him grumble because he knows they're hard to get in a foxhole, too . . . he likes double features . . . Taxes don't bother him. Red Skelton never made him laugh . . . He befriends Broadway Rose . . . He never told a cab driver to slow down . . . Fresh air is something he gets a lot of and if he doesn't walk three or four miles a day, it's because of the weather . . . He misses the World's Fair and he misses

having Grover Whalen around, too . . . Garbo once talked to him . . . He likes the way Margie Hunt wears her clothes . . . Gin rummy never got hold of him—he still plays mah jong . . . And drinks zombies . . . He liked Sixth Avenue better with the El.

He's a Broadway oddity because he's so rare. Perhaps he doesn't even exist. If he does, no one I know has met him yet. He's simply too good to be true—to Broadway.

CARMEN JONES and "Oklahoma" are two Hammerstein librettos (with lyrics also by Oscar) which represent the greatest, in this opinion, of the Hammerstein family, on Broadway currently . . . This is no ordinary opinion, therefore . . . Oscar said: "There is only one form which 'Rain' should take in its musical version. I think . . . It should—IT MUST—be made into grand opera . . . Operating is too light for the heavy." . . . The music must be heavy."

Horoscope

By FRANCES DRAKE
Tuesday, June 20, 1944
IF TODAY IS YOUR BIRTHDAY—Light-hearted; clever; not always concerned about deep study of any one particular subject but a gatherer of interesting information about several. Suited to advertising, promotion, the stage, screen, radio, reporting, photography. You can, with concentration, become highly skilled. Birthdate of Anna L. Barbauld, English poet, miscellaneous.

LUCKY NUMBER—12.
LUCKY COLOR—Sky Blue.
Read 15 cents and later, not advised, stamped envelope to Frances Drake, Boston Evening American, Box 2228, Boston. Be a fatalist. For details, stamps and lucky charms for the first six months of 1944, giving the day and month you were born.

Star Shine By Sidney Skolsky

HOLLYWOOD, June 20—Deanna Durbin, to some of her male fans, has more appeal than the professional sweater girls. To others, she represents the sister type.

After you see her in "Christmas Holiday," or if you meet her in a restaurant, you can see for yourself that it's a tricky glamour.

There's no Deanna Durbin use pretending.

Her real name is Edna Mae Durbin. She hails from Winnipeg, Canada, and the date is December 4, 1921. Deanna is the name she took for herself when she was signed by Universal.

She now has a figure that gets a wolf whistle. She's five feet five inches tall, and she measures 35 symmetrical inches around the chest. And that's without extending herself. Her waist glides into a neat 24 inches, and her hips curve back to 35 inches. She has blue eyes and brown hair, and she's got them.

WHEN SHE APPEARS in public, or when there are strangers on the set, she is formal and dignified. When she's with friends, she lets go of the reserve.

She is seldom satisfied with her work. In "His Butler's Sister," she had to sing a song in Russian. The studio engaged Max Rabinowitch, a pianist-composer, to teach it to her. When she recorded the song, everyone was satisfied. Max said it was wonderful. She said: "I pronounced 'natch' instead of 'notsch.' I'd like to do it over."

She has no beauty secrets. She uses only soap and water on her face, never oils or creams. She takes a cold-water shower every morning. Honest.

She admits that she isn't a good housekeeper. She doesn't sew, because she doesn't like to. She doesn't cook very well, and only when she has to.

FOR LUNCH, when working, she has a sandwich, a salad, a glass of milk and a chocolate sundae. Her favorite dish is a nice, juicy steak or a hamburger.

When it comes to learning her lines, she is a quick study. She generally does it on the set before the scene is filmed. "I learned my lesson many pictures ago," she explained. "I would come to work late from having stayed up the night before studying the script. Then I'd find they had rewritten the scene. Now I wait until just before the camera rolls. It's easier that way."

DON'T LAUGH, but he applauds voluntarily when he's at a radio broadcast . . . Pistol Packin' Mama happens to still be his favorite song . . . The

Drawn by Swan—Copyright, 1944, King Features Syndicate, Inc.
"Welsh rabbit—potatoes—sweet rolls—pie—and no cream in my coffee. I'm on a diet!"

IN THE INTEREST of interesting discussion of what will be the most intriguing musical production of the impending season, we would be pleased to pass along to readers the reasons why Messrs. Dietz and Mamoulian et al disagree with Mr. Hammerstein, as they obviously do . . . For "Rain" to music will be "Rain" to "light" music, as Vernon Duke is a composer of musical comedy or operetta tunes, not operatic ones . . . (How timeless and beautiful is his "April in Paris," by the way.)

JVA Drive for Comic Books

Meeting an insistent demand from our servicemen, Boy Scouts of the Boston Council, including Junior Victory Army members, are conducting a campaign for comic books and funny papers.

The appeal for this material comes from the Citizens Committee for the Army and Navy, Inc., affiliate of the USO here, with headquarters on Commonwealth ave.

All comic books collected should be packed in neat bundles for easy handling and delivered to the nearest branch of the Public Library.

Attached to headquarters of the Citizens Committee are Army, Navy, Marine and Air Corps officers through whom the comic books are distributed to bases, camps, hospitals and recreation centers where they are most urgently needed.

To join the JVA, send your name, age and full address to Junior Victory Army, Box 228, Boston, Mass. If, in addition to enlistment, you want the JVA insignia pin and membership card, enclose a 10-cent coin well wrapped in your letter.

Read the next JVA story in Wednesday's Daily Record.

USO in Talent Search Here

The USO-Camp Shows, stalking talent for some 200 additional units requiring at least 1000 entertainers, has selected Boston as one of 40 odd cities in a coast-to-coast recruiting campaign for professional or semi-professional entertainers.

The increased demand for camp entertainment for fighters here and abroad has created a desperate shortage of suitable entertainers, including accordionists and accompanying guitarists. USO-Camp Shows pay salaries and when overseas, expenses as well.

Charles E. Kurtzman, Loew's division manager, designated Boston area representative in the local talent quest, may be reached at Kenmore 5963 or 1744. Arthur Seelig, Broadway producer and USO-Camp Shows traveling representative, may be interviewed at Hotel Statler, where auditions will be held June 28.

Carol Thurston at Chelsea Bond Rally

Carol Thurston, the exciting new De Mille discovery who charmed all at last night's "Story of Dr. Wassell" War Bond premiere at the Metropolitan Theater, is to make a guest appearance on the stage of the M & P Olympia Theater, Chelsea, tonight. Admission is by War Bond purchase only.

The occasion is the War Bond premiere showing of "See Here, Private Hargrove."

A NEW FACE bound to win "Home in Indiana" film audiences belongs to pretty, young Jeanne Crain. She is shown here with Lon McCallister, remembered as the shy, boyish soldier in "Stage Door Canteen." The Indiana saga comes to Keith Memorial screen tomorrow. Walter Brennan, Boston's A-1 gift to motion pictures, portrays a veteran driver of the Grand Circuit whose rehabilitation is the theme of "Home in Indiana."

'Home in Indiana' for Keith's

Due tomorrow on Keith Memorial screen is the new Walter Brennan picture, "Home in Indiana," the 20th Century-Fox Technicolor film which is said to have as much appeal as its earlier all-around hit, "My Friend Flicka."

It has been adapted for the screen from George Agnew Chapman's Saturday Evening Post story, "The Phantom Filly," which June Haver head the supporting Threading through it is a story of a boy's passionate love for horses, "Gildersleeve's Ghost," with his help in the rehabilitation Harold Peary and Marion Mar- of his uncle as a trainer of trotters, in in the latest of the series, is Brennan, Academy Award winner to be the co-feature.

Beauty

It's Grand for Oily Skin

Fashion

My Day By Mrs. Eleanor Roosevelt

WOE UNTO THE GAL with an oily skin who lets King Sol beam down upon her unprotected complexion. A specialized skin wash... specific for oily skin... will help such a complexion become soft and smooth and free from externally caused blackheads and coarseness. Maria Montez poses.

By RUTH MUGGLEBEE

OILY SKIN is bad enough in cold weather... but when the sun says hello it usually is good-bye for the gal whose face is prone to oil gushers. Often her face is oilier than ever... and it is a most perplexing problem to regulate the complexion into good behavior and smooth, soft appearance.

We all like to lift our faces to the sun in summer... it is the thing to do... but the gal whose complexion favors the greasy look when the mercury is high... must be very careful before following suit.

Oily skins draw dust and dirt like a magnet... and more often than not... the oily skin becomes a hunting ground for blackheads, coarseness and externally caused blemishes... which take root in the fertility of exuding oil glands.

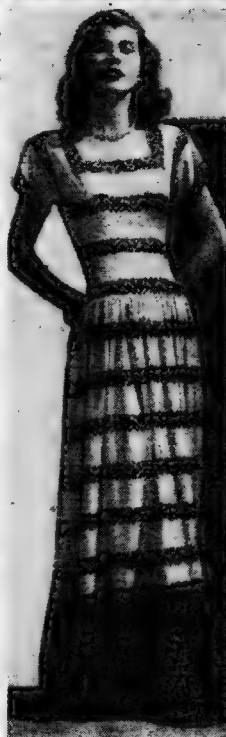

Because heat seems to have the effect of making an oily skin oilier... it is particularly important that a specialized wash be given this type of complexion. And, the wash I have in mind... is a clever combination of tiny granules of soap in a cream... a specific cosmetic improved and developed over the 90 years of progressive cosmetic chemistry to which its creator has dedicated its time and talents.

MAKE FACE IMMACULATELY CLEAN

All you need is just a thimbleful of this special cream skin wash... lifted from the jar... and smoothed between the palms of the hands with warm water. Then massage it into the oily skin inclined to blackheads, coarseness and surface blemishes... concentrating on the oily areas around the nose, chin and forehead.

The grainy substance dissolves the dirt and pore-clogging impurities... while the cream does its work of softening and smoothing the skin. It is washed off... exactly like the soap and water routine... and your face feels immaculately clean... healthfully aglow and bright. And, after a while... with care and regularity... your face will be in tune with the climate.

For the name of this specialized summer care for oily skin, phone the Beauty Dept., LIBERTY 4000, or write me, care of the Boston Evening American, inclosing a stamped, self-addressed envelope.

BOTH COLOR AND PATTERN lend a striking note to this dress up summer evening model from a New York house. Bright printed bands across a sand jersey ground... accent the season's wide shouldered slim-silhouette for the after-dark social hours... when the lights are low and the rhythm is syncopated. The model lends height and dignity—R. M.

Good Luck Supper for Grad Army Wife Is Happy

By MARTHA LEE

SUCCESS TO THE GRADUATE—Best wishes in a new adventure—whatever the theme of an informal supper may be, frankfurters cut to form good luck wishbones, and filled with potato salad are a good tasting, attractive and appropriate serving.

GOOD LUCK SUPPER

Frankfurter Wishbones with Hot Potato Salad
Beet Relish
Four Leaf Clover Rolls
Butter
Hot Gingerbread
Canned Pear Halves
Milk
Coffee

If the refreshments are being served for a luncheon or supper, allow at least two wishbones per person. If they are to be served later in the evening, one frankfurter wishbone for each person may be sufficient.

FRANKURTER WISHBONE

1 lb. frankfurters
Hot Potato Salad
Cover frankfurters with hot water. Heat slowly for about 7 minutes, but do not boil. Drain and cut each frankfurter in half lengthwise to about one inch of the end. Spread the split halves so that the frankfurter resembles a wishbone. Arrange on hot platter. Fill the "wishbone" with hot potato salad.

HOT POTATO SALAD

8 medium sized potatoes
1 tsp. salt; 1/4 tsp. pepper
1 tsp. dry mustard; 1/2 tsp. sugar
1/2 tsp. flour; 1/2 cup water
1/2 cup vinegar; 1 egg;
1/4 lb. bacon; 1 onion
Cook potatoes in skins and

Frankfurter Wishbones With Hot Potato Salad

remove skins while hot. Cut into 1/2-inch cubes. Combine salt, pepper, mustard, sugar and flour. Add liquid and slightly beaten egg. Dice bacon and fry until light brown. Add grated onion and cook until tender. Combine the two mixtures, add dressing to potato cubes and heat until liquid is absorbed. If the salad is too dry, add a little water. Fills 12 "wishbones".

FOUR LEAF CLOVER ROLLS

1 cup milk; 5 tsp. sugar
1 tbsp. salt; 1 cube yeast
1 cup lukewarm water
6 cups sifted flour
6 tbsp. melted shortening
Scald milk, add sugar and salt; cool to lukewarm. Dissolve yeast in lukewarm water and add to lukewarm milk. Add 3 cups of flour and beat until perfectly smooth. Add melted shortening and remaining flour, or enough to make easily handled dough. Knead well. Place in greased bowl. Cover and set in warm place, free from draft. Let rise until doubled in bulk, about 1 1/2 hours. When dough is light, divide into four small balls. Brush sides with melted butter or margarine and place 3 balls in each section of a greased muffin pan. Cover and set in warm place, free from draft. Let rise until doubled in bulk, about 1 hour. Bake in hot oven at 425 deg. F. for 20 minutes. Makes 2 dozen rolls.

GINGERBREAD

2 cups sifted flour
1 tsp. baking soda; 1/4 tsp. salt
1/2 tsp. ginger
1 tsp. cinnamon
1/2 cup firmly packed light brown sugar
2 eggs, beaten; 1/2 cup molasses
1 cup sour milk or buttermilk
1/2 cup shortening, melted
Mix and sift dry ingredients. Combine eggs, molasses, sour milk and shortening; gradually add to flour-sugar mixture, beating thoroughly. Turn into greased 9-inch square pan and bake in moderate oven (350 deg. F.) for 40 to 50 minutes. Makes nine 3-inch squares.

DEAR MISS FAIRFAX:

May I have the privilege of saying I've got one of the best husbands in the world. Although Uncle Sam has separated us for a while, we love each other and intend to make our marriage like those we read about in fairy tales.

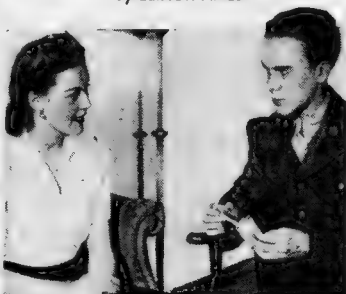

When I read about women getting divorces, I always say it takes two to make or break a home. No one can fight by himself. And if a woman thinks it's fun to play the part of mother and father, they'd better try it for a while before they decide. I've had the experience and it's no easy job. My husband has been in the Army 13 months and in England for nine of these months. (MRS.) E. P. D.

It's been said that the happiest countries have the shortest written histories. This seems to be the case with this very fortunate lady who gives us a glimpse of her domestic happiness.

Copyright, 1944, King Features Synd., Inc.

The Correct Thing

By ELINOR AMES

MAY I SMOKE? So many women smoke nowadays that it's easy to forget the old courtesy, "Do you mind if I smoke?" However, a gentleman always asks permission to smoke in the presence of one who he knows does not smoke or who has declined his proffered cigaret.

One red stamp and two cents for each half-pound of used fat.

Shaded Stripes Popular

By BETTINA BEDWELL

CLAIRE MCCARDELL, that very gifted young designer of casual clothes, is making quite a point of striped chambray dresses for summer. They are striped in the infinitely soft kind of stripes that are called "shadow," the color blending from one to the other, so that though the stripes are very wide, the effect is not at all bold or brazen.

One of the shaded striped chambray dresses of this designer is sketched. The colors run from soft red through blue, green to gray. The waist of this dress is a real sun-buck, having no back at all, while the front is a soft surplined one.

The skirt is gathered at the front, and there is a belt at the waistline.

Punching Has Won For Bolvin and Ortiz

By JACK CONWAY

A YOUNG MAN with a highly trained scientific mind, undoubtedly a graduate of Tech, once figured it out that if the power behind all of the blows that Jess Willard used to beat Jack Johnson into submission at Havana, Cuba were harnessed into a single punch that there would be sufficient force behind it to knock over a 30-story skyscraper.

I regret that the intellectual genius who figured out this mathematical problem is not available as I would like to have him measure the hitting powers of Manuel Ortiz of Mexico City, world's bantamweight champion, and Larry Bolvin of Providence, New England featherweight king, who collide in a 10-round bout at a Callahan A. C. show at National League Park on June 29. Ortiz and Bolvin are the hardest hitting little fellows to come along since Pancho Villa was at his fistic peak. I doubt if these sturdy featherweights could tip over a 30-story skyscraper even if their punching power could be packed inside of a shell and released, but probably they could wreck a 10-story building, which would be quite a feat.

Personally I shall always take Com. Jack Dempsey when it comes to packing the greatest amount of fistic dynamite under padded gloves. Dempsey used to paralyze his opponents with a single shot from his left hook.

Even the mountainous Willard was beaten down to the size of an ant hill when he tried to defend his world's heavyweight championship against Dempsey at Toledo.

"I was punching pretty good the day I won from Willard," Dempsey told me during his recent visit to Boston. "I felt I could have knocked over a mountain. The huge Willard made a perfect target for my blows."

Dempsey admitted at the time that Louis Firpo, South American giant, hit him the hardest blow of his career. That was the punch that knocked Dempsey through the ropes and almost caused him to lose his title.

Bolvin's Right Duke

LET US LOOK at Bolvin's record. He has had 52 professional bouts and has won 90 per cent of them. Half of his opponents have been knocked out.

Exhibit one is Joey Archibald, former world's featherweight champion. Archibald met Bolvin in an overnight match in Providence on June 7, 1941. He wished a tune-up bout as he was getting ready to defend his title against Harry Jeffra. Bolvin was obliged to come in at 127 pounds. He took his punch along with him and knocked Archibald out.

Jackie Wilson, former featherweight champion, is offered as Exhibit 2. Bolvin won a decision over him at Providence on October 4, 1943.

Exhibit 3 is Lou Transperanti of Providence who Bolvin knocked out in Providence a month after the Wilson bout. Transperanti won from Lou Salica shortly before the latter dropped his world's bantamweight title to Manuel Ortiz.

I saw much of Bolvin when he was boxing in the All-American tournaments. He used to chill his ring rivals with right-hand blows. When he fought Ortiz in the All-American finals in the Boston Garden six years ago he lost a

Manuel Ortiz

split decision. It was a furious battle of sturdy little punchers.

Ortiz' Great Record

SINCE ORTIZ knocked out Lou Salica in 11 rounds he has defended his championship successfully 10 times. Eight of these title defenses were within a year. Tommy Farmer says Ortiz can punch hard for any featherweight and that he will chill Bolvin and Willie Pep.

Ortiz' willingness to meet all-comers gives an idea of his ring class. Like Joe Louis, heavyweight champion, he does not believe there is a man of his weight he cannot knock out.

In California Ortiz is hailed as a greater hitter than Pancho Villa. He has proved his right to so much support from the fans by his convincing punching against the best available opponents.

Bolvin has accepted Ortiz' challenge to punch it out with him. This should assure ring fans of one of the most exciting featherweight bouts ever staged in Boston.

The Disabled Veterans' Fund of the American-Record-Sunday Advertiser will receive 10 per cent of the gross receipts of the show. Ortiz, Bolvin, Eddie Mack and Jack O'Brien and Bob Quinn of the Braves wish to help the veterans of this war.

Vaughan Doesn't Hear Call, Remains Rancher

BROOKLYN, N. Y., June 20—Any lingering hope that Arky Vaughan, the Dodgers' absent shortstop, would return to baseball vanished yesterday when he applied to Commr. Landis to have his name placed on the Brooklyn club's list of retired players. His request has been granted.

According to baseball rules Vaughan will have to remain on the retired list for a sixty-day period and that means he will not leave his ranch for baseball this season.

When the Dodgers recently cut their player squad to comply with the player limit rule of twenty-five Vaughan was kept on the list of eligible players.

Pidgeon Medford School Sports Head

The Medford School Committee last night voted in favor of Edwin F. Pidgeon as faculty manager of athletics at the high school at \$700 a year in addition to his teaching salary. He succeeds Richard J. Phelan, who resigned recently. Pidgeon, acting head coach of football, will remain in the latter position for the duration, while Harry D. Buccis will be actually manager.

Dissension Hits Phils; Pennock Backs Up Fitz

PHILADELPHIA, June 20 (AP)—New reports of dissension, partially confirmed by General Manager Herb Pennock, came today from the National League Phillies—less than a year after their Bill Cox-Bucky Harris troubles were the sensation of the baseball world.

But Pennock, who would say only that "one troublesome player" was creating a problem, made it clear there would be no repetition of last year's developments, which culminated in Harris' dismissal as manager and Cox's subsequent ouster from baseball.

"I'm not the boss on the field but I intend to support Fred Fitzsimmons 100 per cent," said the dapper general manager, who is in active charge of the club during the absence of its 28-year-old president, Sgt. Robert R. M. Carpenter, Jr.

He did not name the "troublesome" player nor did he suggest it might be Chet Covington, southpaw relief hurler who was released on a 24-hour recall yesterday to Utica, the Phillies' farm club in the Class A Eastern League.

The dissension reports, like last season's actual eruption, came after the Phillies slumped from the first division early in the season to seventh place.

At that point last year Harris was fired. Cox biologized for not giving him a chance to resign. Harris accused Cox of "second guessing" him and the two engaged in a name-calling bée.

It was after the season ended that Comr. Landis barred Cox from baseball forever on grounds that he had bet on games.

Somerville Names Lynch School Coach

Tom Lynch, assistant coach of the Somerville high school football team last fall, has been named head coach for next season by the school board, replacing Al Cullen, whose contract expired at the close of the 1943 campaign. Lynch was a crack fullback at Somerville High before moving to Holy Cross, where he played under Coaches Eddie Anderson and Joe Sheeketski, graduating in 1941. He also served a short term with the Philadelphia Professional Eagles.

Lynch is married and the father of five children. He's 27 years old.

Check Ike, Cleo

NEW YORK, June 20 (AP)—Ike Williams, lightweight contender, and Cleo Shans, his opponent in a 10-rounder at Madison Sq. Garden Friday night, underwent a physical checkup by the New York State Boxing Commission today.

HERB PENNOCK
Admits Blue Jay Headache

Willie Pep to Battle Joyce

CHICAGO, June 20 (AP)—Willie Joyce, Gary, Ind., Negro lightweight, winner of two out of three engagements with Henry Armstrong, last night was matched for a ten-round bout with Willie Pep, Hartford, Ct., at the White Sox ball park July 7 under the promotion of Jack Kearns.

Pep is New York State featherweight champion, while Joyce is the California lightweight holder.

The weight will be 134 pounds, with each boxer posting \$2500 for weight guarantee.

Mgr. Art Ross' Son Missing in Action

Art Ross, Jr., 26, flight lieutenant of the Canadian Air Force and son of Art Ross, manager of the Boston Bruins hockey team, was shot down over France June 11, according to word received by his friends from Canada yesterday. He has been reported missing in action.

Cronin In-Law Beats Red Sox

Exhibition games played by the Red Sox are no-account affairs insofar as the American League race is concerned, but they are specially galling if one's brother-in-law disturbs domestic tranquility by licking the other brother-in-law by blasting a three-run homer to win a ball game. That's what happened yesterday at the Bainbridge Naval Training Station in Maryland where Joe Cronin took his Red Sox team to play the service team.

Sherry Robertson, Joe's brother-in-law, hit his three-run homer in the seventh inning and the Red Sox bowed to the servicemen 5 to 2. To add to Cronin's woes when brother-in-law Sherry, said into the plate to complete the circuit he asked Catcher Bill Conroy of the hand and the latter will be out of the game for a few days.

There was considerable of a Boston tinge to this game aside from the Sox participation. Elbie Fletcher, from Milton, the former Pittsburgh first-sacker, played for the Training School team as did Dick Sisler, son of the famous George Sisler, former St. Louis Browns and Braves first sacker. Emmett O'Neill went the distance for the Sox and allowed five hits. Lou Finney, who recently came out of retirement to again don Boston regalia for the first time in two years played first base for the Sox and got a single. It looks as though Joe Cronin's SOS for a veterinarian to care for his aging "dogs" would be withdrawn.

The Red Sox play a twilight double-header with the Athletics tonight with Tex Hughson in one game and either Clem Hausman or Yank Terry in the other.

Red Ruffing Stops Hollywood Stars

HOLLYWOOD, June 20 (AP)—Twenty-five hundred fans who purchased \$1,500,000 worth of war bonds as admissions saw Red Ruffing stop the Hollywood Stars, 7 to 1, last night in an exhibition baseball game. Ruffing, former New York Yankee mound ace, and Roy Pitter, former Montreal twirler, held the Stars to four hits.

Braves Play Two Game With Phils

By BILL GRIMES

For the third time in less than a fortnight, the major league brand of twilight baseball will be tried out this evening, when the Braves and Phillies go into action at Braves Field. President Bob Quinn announced that the game will start at 6 o'clock.

The Red Sox played two twilight games. With the Yankees as the attraction, the Yawkeymen drew 6500 odd cash customers for a game which didn't get underway until 6 o'clock. One week ago tonight, the Athletics and Red Sox attracted approximately 4700 to Fenway Park for a 5:30 tilt.

Unless they do an about face from the article of ball played Sunday against the Giants, the Braves will be flirting with last place when they start West late this week. With the exception of Al Javery, the Braves pitchers flopped badly in the Giants series. Ira Hutchinson didn't have a prayer either on Saturday or Sunday, for in 5 2-3 innings, he was hammered for 10 hits. Even the usually very reliable Jim Tobin came up with an off day and was yanked in the opening inning.

The Barretts will do the hurling today, "Red" for the Braves and "Kewpie" for the Phillies. It's a sad but some time since "Red" Bar-down the river, early in the season he has turned in a win. He was beaten by the Dodgers in Brooklyn and a week ago, Lupien has lyn and the Phillies in the City, been playing well for the Phillies,

Game starts at 6 o'clock.

while Peacock, who spent practically all of his time in the bullpen, while he was with the Sox this year, has been taking his regular turn behind the plate, since he has been on General Manager Herb Pennock's pay roll.

The Braves and Phillies will play a double-header tomorrow and wind up the series with a single game on Thursday. It looks like Al Javery and Jim Tobin for the twin bill and Nate Andrews for get-away day.
